WHO WE ARE?!

We are a reliable and experienced company that specializes in providing high-quality services in the field of calibration, validation, and process validation. Our team of qualified professionals is dedicated to ensuring that our clients receive accurate and efficient calibration services that meet international standards. We also offer comprehensive training and validation study services for QC and QA sections with certification, so that your staff is equipped with the necessary knowledge and skills to perform their job effectively and efficiently. Additionally, we provide water system installation and validation services, with a 10-year guarantee, to ensure that your water system is installed and validated to the highest standards. At our company, we are committed to delivering top-quality services that meet our clients' needs and exceed their expectations.

WHAT WE PROVIDE

Training & validation study service (with certification)

We offer a comprehensive training program for staff

Section 1: Foundational Principles & Quality Standards

- 1.1 GMP (Good Manufacturing Practices)
- 1.2 GLP (Good Laboratory Practices) & Standard Policy
- 1.3 Validation & Qualification Study

Section 2: Critical Validation Processes

- 2.1 Water System Validation
- 2.2 Cleaning Validation
- 2.3 HVAC System Validation
- 2.4 Temperature Mapping Study
- 2.5 Equipment Qualification

Section 3: Bioavailability & Pharmacokinetics

- 3.1 Bioavailability Study

Section 4: Induction & Fundamental Testing of Microbiology

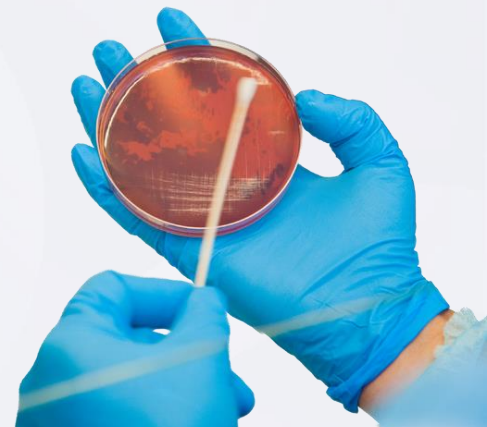

- 4.1 Induction Training about Microbiology
- 4.2 Microbiological Testings

Section 5: Specific Microbiological & Quality Tests

- 5.1 Bioload Test
- 5.2 Sterility Test
- 5.3 Water Testing
- 5.4 Liquid Particle Matter Test
- 5.5 Effectiveness Test
- 5.6 Antimicrobial Assay
- 5.7 Bacterial Endotoxin Test

Section 6: Microbiological Culture & Assay Techniques

- 6.1 Media Preparation
- 6.2 Growth Promotion Test
- 6.3 Subculturing

WHAT WE PROVIDE

Calibration Service

Our calibration service company specializes in ensuring the accuracy and precision of laboratory instruments, pressure gauges and sensors, temperature sensors, steam sterilizers, analytical balances, thermometers, data loggers, production equipment in pharmaceutical industries, differential pressure gauges, laminar air flow cabinets, air sampler devices, compressed air samplers, Milliflex pumps, incubators, and refrigerators. Our calibration procedures follow ISO 17025, ISO 90001, and IQAS requirements to ensure that our clients receive reliable, consistent, and trustworthy results. With our expert calibration services, you can have peace of mind knowing that your instruments and equipment are calibrated to the highest standards.

WHAT WE PROVIDE

SPECIAL OFFER

- ✓ We are pleased to offer our first client a 10% discount on the total cost of services.
- ✓ Providing calibration certificate with label for 1 Year
- ✓ Periodic calibration maintenance and review 2 times/one year
- ✓ Calibration service will be performed as per standards reference ISO17025.

WHAT WE PROVIDE

Certification for ISO Standard & GMP

We specialize in qualifying your organization to achieve prestigious GMP and ISO certifications, validating your commitment to quality, safety, and operational excellence.

What We Offer

- **ISO Standard Certification:** We help you align your quality management systems, environmental practices, and other key processes with internationally recognized ISO standards, including the prestigious British Standards Institution (BSI) certifications.
- **GMP Certification:** We qualify your company through the comprehensive process to meet the stringent requirements of GMP standards, both local (MOH GMP) and international.

Sample of Our Certificates

WHAT WE PROVIDE

Validation & Qualification Service

- Water System Qualification (IQ, OQ and PQ)
- HVAC System Qualification
- Cleaning Validation for Area and Equipment
- Test Method Validation
- Process Validation
- Compressed Air Validation & Qualification
- Temperature Mapping Study for Incubators & Warehouses
- Bioavailability and Bioequivalence Study
- Equipment Qualification
- Media Fill Study and Meta Storage Room

WHAT WE PROVIDE

Documentation Service

We provide all the essential documents your lab needs to run smoothly and stay compliant:

- SOPs (Standard Operating Procedures): Step-by-step instructions for your lab processes.
- STPs (Standard Test Procedures): How to perform your tests correctly.
- MTPs (Microbiological Test Procedures): Detailed instructions for specific microbiological tests.
- Protocols: Detailed instructions for specific experiments.

We cover all your departments:

- Microbiology
- Quality Control
- R&D (Research and Development)
- Quality Assurance

Our documents help you:

- ✓ Stay compliant with regulations
- ✓ Work more efficiently
- ✓ Avoid mistakes and problems

WHAT WE PROVIDE

Providing Laboratory Supplies

We provide a comprehensive range of high-quality laboratory supplies to meet your research and testing needs:

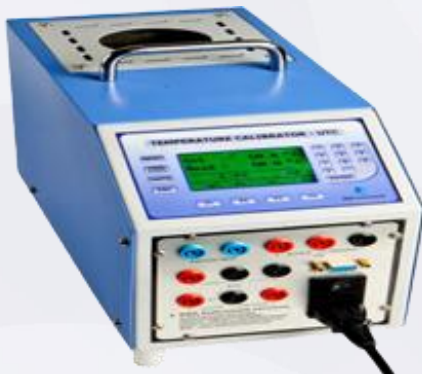

- **BET Reagents:** Endotoxin testing reagents for accurate and reliable results.
- **Microbial Cultures:** Diverse collection of microorganisms for research and quality control.
- **Microbiological Media:** Prepared media for cultivation and identification of microorganisms.
- **Laboratory Instruments:** All essential tools for your lab, from basic glassware to advanced analytical equipment.

WHAT WE PROVIDE

Calibration Equipments

For training, checking and calibration
